DevOps

Plan + Track

It starts with an idea – and a plan
how to turn this idea into reality ...

Develop + Test

Once the iteration starts, developers turn great ideas into features ...

Release

When all tests pass, the build is deployed to testing environments for each stage in the release process

Monitor + Learn

Learn and understand how users use your app, how it reacts and quickly fix issues and bugs

Open Source Inspiration Story.....

WORDPRESS

WordPress started in 2003 with a single bit of code to enhance the typography of everyday writing and with fewer users than you can count on your fingers and toes. Since then it has grown to be the largest self-hosted blogging tool in the world, used on millions of sites and seen by tens of millions of people every day.

If you like to learn by doing.....End-to-End
